Antony Keerk Huaman Tuanama

Urb. Las Campiñas, Mz. K. Lote 12 - Carabayllo • Lima, Peru • antonyhuamantuanama@gmail.com • +51 963077548

Profile

I hold a bachelor's degree in Software Engineering from Universidad Tecnológica del Perú (UTP). I possess experience in web development utilizing HTML, JavaScript, and React, alongside proficiency in PL/SQL, MS Office. I am actively seeking opportunities in the Information Technology and web development domain to further my professional growth and contribute to challenging projects.

Education

Universidad Tecnológica del Perú   Lima, Peru
Bachelor, Software Engineering   July 2023

Alura Latam   Lima, Peru
Front End Programming with React   March 2023 – September 2023
I studied Front End programming using React technology, focusing on the development of interactive and dynamic web applications.

Experience

GDP STUDIOS   Lima, Peru

Bilingual IT Support   January 2022 – July 2023
At GDP Studios, I played a pivotal role as a Bilingual IT Support professional. My responsibilities included reviewing and managing casino user data, monitoring, and restarting game server systems, as well as installing Jackpots and integrating them with databases. I conducted game testing and ensured optimal functionality of websites. This experience enhanced my technical skills and my ability to work in a bilingual environment and collaborate effectively in multidisciplinary teams.

Personal Projects

ENCRYPTOR
Description: Developed an encryptor with the purpose of encoding messages by changing vowels.
Skills Used: Figma, HTML, CSS, JavaScript, GitHub.
Results: The project allows for message encryption and decryption, in addition to being a responsive interface. You can view the project here.

ALURAFLIX
Description: A Single Page Application (SPA) website that allows users to store YouTube videos of interest. It also enables the creation of categories, assignment of videos to categories, and basic functions of editing and deleting.
Skills Used: Figma, HTML, CSS, JavaScript, React, GitHub.
Results: The project successfully allows for the creation, editing, and deletion of categories and videos. It is also fully responsive, ensuring a seamless user experience across different devices. You can view the project here.

Skills & Interests

Technical: HTML, CSS, JavaScript, Java, React, GitHub, SQL Server, Figma
Language: English, Spanish
